Hi, I'm Sandra Vesterstein! Thrive Learning Collective is the manifestation of a lifelong dream. I have created a unique platform for a collective of healers and practitioners that supports everyone's success.

"Sandra will surprise and amaze you. If you're looking for a coach or seek NLP training, your search is over. Sandra will deliver much more than just guidance and training – you're likely to experience a wonderful personal transformation you couldn't even begin to imagine. Her heart-centered approach and mastery of the content make her an outstanding coach and trainer. She was, by far, the best NLP professional I've met and learned from. I wholeheartedly recommend Sandra to anyone seeking real transformation and knowledge."

Brad Guerreiro
CEO,
Pinnacle Performance Institute

I began coaching when I owned a retail business in Minnesota. Employees were my first clients. With my guidance, they drove my company to new heights of success while I discovered that I naturally would guide people into becoming their best self. While I applied my business and entrepreneurial skills in the wholesale and telecommunications industries, I found my true passion was "Coaching."

I took my first Life Coaching Course 20 years ago and received guidance to continue my training. This is when I pursued my Master NLP Certification. At the time, I wasn't sure exactly why I was being guided down that path, but something inside of me said, "Trust Me."

That trust led me to Bennett I Stellar University.

After I received my Certification as a Trainer of NLP & Hypnotherapy, Michael Bennett, the late founder of Bennett Stellar University, agreed to mentor me throughout those early years as a Trainer & Practitioner.

From 2009 until Michael Bennett's passing in 2018, I worked as an independent trainer and as a co-trainer with Michael for Bennett Stellar University. It was an honor to work side by side with such a gifted trainer and practitioner of NLP, Hypnotherapy, and Reiki.

Since Michael's passing, I have continued the process of growing, evolving and healing. In doing so, I created a collective of healers and practitioners that supports everyone's success called "Thrive Learning Collective."

MISSION STATEMENT

Thrive Learning Collective is a platform that unites Leaders, Instructors, and Practitioners with Students interested in professional and personal development programs. The focus of these programs is to transform individuals, businesses, and groups to evolve spiritually, personally, and professionally through Unity Consciousness.

ABOUT THE THRIVE LEARNING COLLECTIVE AND THE HUMMINGBIRD

While developing a logo for Thrive Learning Collective, I was becoming frustrated with each new rendition. Finally, in speaking with my son, he suggested that I incorporate an animal into the logo, which caught me by surprise because I was thinking that same thing. So, I asked myself what animal could represent Thrive, and immediately the Hummingbird came to mind, and here's why.

When I was a young girl, my Dad would refer to me as his little Hummingbird. We shared many interests, and we both had a thirst for learning. He was a forward-thinking man that valued education and approached life with curiosity. Rather than thinking something was impossible, he would approach a challenge as an opportunity to think outside the box and would ask himself, "How *can* I do this?" He taught me the meaning of resiliency.

I decided the best symbol that expresses the message of Thrive Learning Collective would be the Hummingbird.

THE GIFTS OF HUMMINGBIRD

The sweetest nectar lies within. Hummingbirds are known to symbolize love, good luck, the enjoyment in life and the lightness of being. In Native American cultures, hummingbirds are seen as healers. Their message for us is to develop our adaptability and resilience, all while keeping an optimistic outlook on life.

THE HUMMINGBIRD REPRESENTS:

1. Grace
2. Resiliency
3. Connection
4. Being Present
5. Adaptability
6. Lightness and Joy
7. Responsiveness
8. Playfulness
9. And to remember the sweetest nectar does come from within!

“THE STORY OF HUMMINGBIRD”

In a vast forest that was being consumed by fire, all the animals became overwhelmed and frozen in fear as they watched the forest burn. They felt powerless against the raging fire . . . all but the hummingbird. The hummingbird saw this problem from a different perspective. Instead of seeing all of the impossibilities, it wondered what it could do to make a difference.

The small little hummingbird decided to take action, and it flew back and forth to the river filling its beak up with water and sprinkling the droplets over the fire. The other animals laughed at hummingbird as if shaming him for wanting to make a difference. Even the larger animals such as the elephants questioned hummingbird's effort, after all, they were more capable of delivering water that could save the forest, and yet, they stood by, watched, and did nothing but ridicule hummingbird's efforts. Their judgment didn't matter to hummingbird because he told them he was doing the best that he could.

Without missing a beat, the hummingbird continued to take action. Even though the hummingbird felt somewhat insignificant, he knew he had to take action, no matter how small, then to passively watch the forest be destroyed. For the hummingbird, doing something was better than doing nothing.

Are you doing your best? Remember, small actions lead to big change.

Be the change you want to see in the world.

“One small step for man, one giant leap for mankind.”

PROGRAM #2000

NLP PRACTITIONER

NEURO-LINGUISTIC LIFE COACH

Licensed NLP Practitioner Neuro-Linguistic Life Coach

The Operating Manual For The Mind

Program #2000

8 Day On-site Program - 80 Class Hours
This Program is Pre-requisite to Program #3000 & 3001

What is the secret behind super coaches like Anthony Robbins and the others?

The answer is they are all practitioners of NLP.

Due to its simplicity and effectiveness, NLP has been used effectively by Fortune 100 companies, therapists, consultants, teachers, and health professionals. NLP has helped millions of individuals all over the world overcome fears, increase confidence, enrich relationships, improve learning, and achieve greater success.

"In short, NLP is about how to run our brain in a productive way to consistently achieve the results we want."

In our *NLP Practitioner | Neuro-Linguistic Life Coach* program, you learn the operating manual of the human mind – an extremely effective and indispensable ability for anyone in healthcare, coaching or business.

An NLP Practitioner is the most effective coach for life or business, AND the most effective life coaches are NLP Practitioners.

What is Neuro Linguistic Programming?

Neuro-Linguistic Programming (NLP) is an approach to communication created by Dr Richard Bandler and John Grinder in the 1970s.

Bandler and Grinder discovered that there is a connection between neurological processes (neuro), language (linguistic) and behavioral patterns learned through experience (programming) and that these can be changed to achieve specific goals in life.

Bandler and Grinder also found that NLP methodology can "model" the skills of exceptional people, allowing anyone to acquire those skills.

The Operating Manual For The Mind

Often in a single session, NLP can treat symptoms of such issues as phobias, depression, tic disorders, psychosomatic illnesses, near-sightedness, allergy, and learning disorders.

Once a person's neurological patterns or strategies are identified, they can be easily and successfully adjusted to produce amazing results. What a person was formerly mediocre or awful at performing, can now be performed excellently – and the gifted and talented can be modeled and replicated.

This is why Neuro-Linguistic Programming or NLP has become so popular among those who desire to achieve their life aspirations. It also explains why NLP is the foundation of today's most effective and prominent self-help authors, motivational speakers, and coaches of human potential.

Discover how you can significantly increase your client base, be more successful, and a substantially more effective and heart-centered professional through your understanding of the human equation.

Life Coaching Is a Rewarding Career and Unlike the Average Life Coach, You Will...

- Learn the skillsets of today's most prominent authors, speakers and successful coaches — the ones that made life coaching the lucrative field it is today.
- Learn, and be professionally certified as a Life Coach and an NLP Practitioner — expanding your marketability, scope of practice and client base.
- Graduate with a step-by-step plan to ensure your success through our proprietary coaching platform — DreamSculpting®.
- Experience practical exercises and demonstrations that will build your confidence and remove any personal fears and limitations to your success.

Success Assurance Strategies – Discover how you do what you do. Learn mental strategies of excellence and how you can install them in yourself and others.

Personal Achievement Skills – Reconcile the past and create a compelling future. Releasing limiting patterns that can hold you back from your where you want to go. PROGRAM COMPLETION REQUIREMENTS

To successfully complete this program the student must complete eight (8) courses.

SOCIETY OF NLP APPROVED

The program qualifies for submission to the Society of NLP Licensure. Society of NLP is a world-wide organization set up for the purpose of exerting quality control over those training programs, services and materials claiming to represent the model of Neuro-Linguistic Programming™ (NLP). Having this seal indicates Society Certification and is usually advertised by Society approved centers. When you purchase NLP products and seminars, ask to see this seal. This is your guarantee of quality.

Learn What the master's Learned — “Masters of human experience” like Peter Lowe, Zig Ziglar, Les Brown, Brian Tracy, Jimmy “Z”, and Tony Robbins offer us some clues on how to really achieve extraordinary lives. The clue was that they all seemed to be living exceptionally. So, who trained them? They didn't get to be so successful by attending their own seminars. Right? The answer is Neuro-Linguistic Programming (NLP). Many of the “gurus” in human development are trained in the techniques of NLP. Top 100 Adventures recognized NLP as the real personal development tool. Most motivators use NLP, but they don't teach NLP.

Licensed Master NLP Practitioner Life Transformation Coach Clinical Hypnotherapist

Connecting the Conscious, Subconscious
and Higher Conscious Minds

The first 8 days of this program are an intensive practice in learning the operating manual of the human mind . . . Neuro-Linguistic Programming or NLP.

This is one of the most effective and indispensable tools for anyone in healthcare, coaching or business to have in their toolbox

Why NLP and Hypnotherapy Integration?

The Best Hypnotherapists are NLP Practitioners & The Best NLP Practitioners are Hypnotherapists

First, let's briefly look at how NLP can change any behavior or belief that you or your client may want to change. The basic purpose of NLP is to use neurological responses in a desired manner to program certain behaviors that help people in distinct situations.

From binge eating to anger issues, anxiety to stress, depression to procrastination and every other problem that may be holding your clients back from furthering their career or becoming a better individual, can be addressed with neuro-linguistic programming.

How? I'm glad you asked!

Because when you learn NLP skills and combine them with your hypnotherapy training, you will quickly and easily discover the magic key that unlocks your clients' pathway success.

Neuro-Linguistic Programming allows us to understand the how and why of a client's undesired behavior. Once this is uncovered, we can use NLP and hypnosis to install, at the subconscious level, new, positive changes, thus creating success.

Licensed Master NLP Practitioner Life Transformation Coach Clinical Hypnotherapist

Connecting the Conscious, Subconscious
and Higher Conscious Minds

Our **Clinical Hypnotherapy Training** is filled with practical exercises that are performed with and received from your fellow students. Our instructors effectively demonstrate all techniques taught – hypnotizing and healing student volunteers of real issues that had formerly limited their lives.

This thorough and complete hypnosis training teaches you to be confident and competent when inducing anyone into the state of hypnosis . . .

- Effectively
- Non-verbally
- Conversationally

Be Artful, Versatile, and Masterful

By utilizing NLP and Hypnotherapy together, you significantly improve your client's success in achieving their goals.

NLP is ideal for identify the strategy of words to use, and Hypnotherapy puts the client in a trance-like state, which allows them to access solutions within themselves to create lasting change. In this relaxed state, we also have access to universal intelligence, which is available to us all. In other words, we are free to see the unlimited potential to change behaviors and conditions.

By learning Hypnosis with NLP, you will be able to get a client to a place where they can feel free to explore more options and better solutions and quicker, for their particular issue. For example, a client who has been very focused on seeing their problem in a particularly un-useful way, which has prevented them from changing, is now open to view their issue from different perspectives.

One of the powerful uses of hypnosis is that of indirect suggestion. These are suggestions embedded with the use of metaphors or storytelling, a style of hypnosis we teach at Thrive Learning Collective, which is largely based on the brilliant works of **Dr. Milton H. Erickson**.

Just imagine the level of satisfaction you'll feel as you see your clients realize their personal and professional goals quickly and easily with your guidance.

Licensed Master NLP Practitioner Life Transformation Coach Clinical Hypnotherapist

Connecting the Conscious, Subconscious
and Higher Conscious Minds

With your due diligence, upon graduating from **Program #3000**, you will be and feel competent *and* confident – a highly skilled and qualified **Master NLP Practitioner | Life Trans-formation Coach | Clinical Hypnotherapist**.

Discover how you can significantly increase your client base, be more successful, and a substantially more effective and heart-centered professional through your understanding of the human equation.

You have many options when it comes to NLP Certification and Hypnotherapy Training. The question to ask yourself is, “How effective do I want to be?”

Avoid Cookie-Cutter Courses

Almost all schools that provide hypnotherapy training, with the exception of Thrive Learning Collective, rely on pre-packaged programs and/or instruct their students to rely on reading and/or reciting pre-written hypnotic scripts. This is similar to a presenter reading from his or her notes rather than speaking spontaneously from their heart.

Be a Hypnotist Without Limits

You might want to be a hypnotherapist without limits. You might want to be a professional that can tailor your communication to your client and their specific needs. In this way, you can hypnotize anyone, anywhere, and for almost anything – putting you in the class of the great and truly effective hypnotherapists you may have read or heard about.

Graduate Competent and Confident

This thorough and complete Hypnotherapy Certification program teaches you to be confident and competent when inducing anyone into the state of hypnosis and can...

Attend a Training That Includes Mesmerism

Mesmerism was the precursor to hypnosis and is named after its founder, Franz Anton Mesmer. When exposed to Mesmer's healing energy, his patients would relax and fall into a trance or a sleepwalking-type state. Thus, hypnosis was born.

While research studies at the time showed evidence that Mesmerists, given their energetic methods, enjoyed greater success than did the hypnotists by solely using a mental approach, scientists of the time, and later, psychologists, denied this energy's existence; this resulted in the terms Mesmerism and becoming synonymous. You will discover Reiki is an excellent means to revive the healing art of Mesmerism. In the words of the renown Jedi Masters and Knights: "May the force be with you."

Reiki I, II & Reiki Master Certification

Energetic Gifts For Love and Health
Prerequisite Program 3000 or 3001

Usui Reiki (RAY-Kee) is a hands-on healing art. It is the transference of the universal life energy (Ki, or light energy) through an attuned Reiki practitioner to a person needing to regain health or well-being. Reiki brings balance to the human system, clears un-healthy emotions, and restores the natural flow of energy essential to health and healing.

A practitioner attuned to Reiki becomes a vessel through which this energy flows. The tradition of Reiki dates back to the mid-1800s, although its essence and use date much further back, most likely to the dawn of time. Reiki, as we know it today, found its start with Dr. Mikao Usui, a philosopher and businessman. He was fluent in many languages and was a religious instructor in Kyoto, Japan.

There are three levels of Reiki attunement: Reiki I, Reiki II, and Reiki Master. Reiki I and II are levels, and Reiki Master is an instructor level. The Reiki Master is entrusted with passing on and upholding the Reiki lineage.

Reiki is a simple, natural, and safe method of spiritual healing and self-improvement that everyone can use. It has been effective in helping virtually every known illness. It also works in conjunction with all other medical or therapeutic techniques to relieve side effects and promote recovery.

A Reiki session treats the whole person—body, mind, spirit, and emotions. Just some of the many beneficial effects include relaxation, peaceful feelings, security, and well-being. Many have reported miraculous results.

Reiki is not dependent on one's intellectual capacity or spiritual development. Reiki is an amazingly simple technique anyone can learn. In fact, it is not taught as much as it is transferred to the student during a Reiki class.

A huge thank you to my teacher/mentor Sandra Vesterstein. What a transformation I've made since the first time stepped in her classroom to become certified in NLP and Hypnotherapy.

Not only does Sandra have a unique gift to see the unseen, what has been holding you back from getting exactly what you want in this life, she has a Servant's heart. Always showing up, always doing her best in every moment.

I looked into many different NLP Trainings before taking hers and I am SO GRATEFUL to have attended her course. After graduating I was given the opportunity to mentor under her which has been one of the greatest gifts.

I have received so much from Sandra as well as the teachings of NLP & Hypnotherapy (Sandra Style).

DreamSculpting® Personal Development

The Art of Making Your Dreams Come True

Inspiration Behind DreamSculpting® “Just before the 2008 Olympic games, I was performing a Neuro-Linguistic Life Coaching® session with a swimmer representing the country of Zimbabwe on her way to compete in the China games. Because of this, I had the opportunity to meet the USA Swim Team Coach. I had to ask him, “How did you become a USA Olympic Swim Team Coach?” He replied that he didn’t really know. He said that it seemed like everything just fell into place for him, and he just stumbled into it. He went on to explain, however, that it had always been in the “back of his mind” that he would become an Olympic Swim Coach. It then dawned on me that this is true for those people who succeed in life, and it is even true for those who don’t. What we accomplish in our lives are the things that are stored and believed in “the back of our minds.” At that moment, DreamSculpting® was born. When goals are installed in the deeper levels of our subconscious minds, planning becomes easy, motivation, and action become natural. Achievement is simply the result of an organic journey, rather than one of struggle.”

– Michael A. Bennett, Founder of Bennett | Stellar University, Developer of DreamSculpting®

Learn the Art of Making Dreams Come True

Dream: An aspiration; goal; a term used about things that are the best you can imagine.

Sculpting: Fine Arts; to carve, model, or shape into a solid artistic structure.

DreamSculpting® is the ultimate process for integrating and aligning yourself to achieve your goals

and dreams. It is said that when your conscious will is in conflict with your unconscious imagination, your imagination will always win.

Align your conscious will, unconscious mind, soul, and environment with your goals and dreams – a truly holistic and soulistic approach to the achievement of all your life goals.

Isn't it exciting to know you can use the same creative techniques employed by The Disney® Corporation to design and architect your desires in each important area of your own life. Then install those goals deep within your sub-conscious mind. With your goals planted deep “in the back of your mind,” where all dreams and goals become manifested, and having written out a step-by-step road-map to achieve them, you can take control and action to achieve the dreams you once thought were out of reach.

NLP Skills For Life

Learn to Choose Your Thoughts and Emotions
Rather Than Excuse Your Behavior

Are you operating your life from an outdated program of the past? Most of us are, and we can't figure out why our life doesn't change or get better. We keep thinking, feeling, behaving, and believing the same way and somehow think we will experience something different. It is like following the same recipe for everything we make and expecting something different to come out.

The way we know how to respond to a situation is our mind searches for a similar situation, in our past, and then reacts accordingly. What happens if we don't have a similar situation, then what? Our mind is like a computer; it runs off of programs created from past experiences. If you are not responding differently or you are not experiencing what you want in life, you simply are not running the right program, or you may have to create it. The only way to create it is through a real or imagined experience.

TAKE CHARGE OF YOUR LIFE! Learn tools and proven strategies to experience more success in your life and get more of what you want! Learning how to focus on what you want versus what you don't will be a total game-changer for you.

If you are curious about NLP and want to take it for a test drive, then NLP Skills for Life is a perfect opportunity to experience the power of NLP. You will be expertly guided by Sandra to incorporate core principles of NLP along with learning proven techniques to bring you away from reliving a painful past and toward living into a compelling future. You will truly realize how small changes can make a huge difference in your life. All you need to do is invest in the class, along with four hours of your time.

This 4-hour webinar is guaranteed to be a game-changer for your life.

Breaking The Spell of the Narcissist

Are you ready to “Break the Spell?”

Getting pulled into the world of a narcissist is intoxicating. It happens in the blink of an eye, and before you know it, you start to wonder what happened.

People who have experienced the dysfunctional relationship of narcissism and codependence all seem to have the same storyline. I don't know what happened. When I first met him/her it was incredible. I felt more alive than I ever before. They were so caring and generous with me. They paid attention to me. They made me feel valuable, Or sometimes the story goes like this. Oh my God they were terrible to me. I don't know what was wrong with me that I would be attracted to this behavior. Every time I attempted to walk away, they would turn on the charm and promise they would never treat me like that again, which would only last a short time until the cycle repeated itself.

Sound familiar? Whether the abuse started out overtly or covertly, gradually, self-doubt seeped into your life. The critical nature of the narcissist plants the seeds of self-doubt, and the cycle of being devalued begins. Feeling like you can't do anything right or you are just not good enough becomes the default program for living everyday life. Soon you begin to doubt yourself in all situation. You believe you are not enough. You eventually become exhausted and depleted in the relationship with the narcissist and have nothing left to give, and then they leave because you have changed, and they don't feel loved by you. And you are left asking yourself what did I do wrong?

Most narcissistic abuse recovery programs focus on the narcissist. Breaking the Spell of the Narcissist focuses on you, together we will uncover what got you into the situation in the first place. We will explore what you want in life and create a plan of how to get you there.

Breaking The Spell of the Narcissist

Are you ready to “Break the Spell?”

Believe it or not, the Narcissist and You, the co-dependent, are reflecting the need to feel valued and important. Unfortunately, both are looking to the outside world for value and importance instead of feeling it on the inside. Sound familiar? Learning how you got there in the first place is pivotal in healing yourself.

Learning the lesson from Narcissistic abuse will help release this pattern so that you are no longer on the menu for the narcissist. Rather than continuing to focus on the narcissist, it's time to focus on you. It is time to rebuild your self-worth and value so that you will never be a match for a narcissist again.

This program isn't for everyone who has experienced this pattern of abuse. It is only for those of you who genuinely want to change and heal what created this experience in the first place. This program is not about blame. It is about becoming empowered and learning how to trust and honor yourself again. It is about reclaiming your value. If this sounds like you, then join me for a twelve-week program that will allow you to step into the empowered you!

911 Relationship Rescue

Discover The Secret To “Staying In Love”

911 Relationship Rescue focuses on guiding couples to discover the secret to being and staying in love while building a bridge back to one another.

Couples who seek my assistance are those who are stuck in a troubled relationship because of unaddressed challenges in the past and want assistance in finding their way back to loving each other.

In relationships, when challenges are addressed early, they may require only a relationship, "Band-Aid."

However, if these minor issues are ignored, they can fester and become chronic, resulting in the possible death of the relationship. Before that happens, make the "911 call."

Often, what happens with couples is that they may make the "911 call" to a counselor or another professional to help heal their relationship. Unfortunately, instead of healing the relationship, it is put on life support. They spend time during their sessions rehashing the past and focusing on what they don't like about each other and their differences, which only creates more division.

All relationships experience ups and downs, and most relationships are not perfect. It is how we deal with the challenges and imperfections that will determine if our relationship will pass the test of time.

I do things differently with my clients who are interested in finding their way back to loving each other. I teach couples relationship strategies that foster fulfillment and success. We devote time crafting the relationship that they want to have and create a plan and strategy to get there.

I show my clients that we cannot live in the memories of past pain and expect to create a healthy future at the same time. Healing from the past and creating something new for the future is just one of the steps to bring a couple closer to love.

My Relationship Rescue Program requires couples to leave the past behind and discover new methods of communicating that allow them to become more effective communicators and experience a deeper connection to themselves and their partner.

Relationship Rescue is for couples that are ready to let go of being right and focus on being connected. It is for couples that are interested in restoring their relationship's health, rather than have it be put on life support.
